Puget Sound Partnership

To Whom it May Concern:

This letter is to confirm my support and intent to collaborate on the project “Maximizing returns on investing in barrier culvert removal in Washington state” led by Sunny Jardine that is being proposed for the Puget Sound Partnership call for proposals on Integrated Socio-Ecological Systems. This proposal is well aligned with objectives of NOAA and the Northwest Fisheries Science Center where I serve as supervisor of the Human Dimensions team in the Conservation Biology Division. I intend to participate in the project directly. I supervise Robby Fonner, and I am also highly supportive of Robby Fonner’s direct participation in this project.

Sincerely,

Dan Holland , Senior Scientist
